

## Global Industrie, in Lyon - France 5-8 March 2019

**GLOBAL  
INDUSTRIE**

Industry 4.0 international days, 6 & 7 March  
*Conference and Business meetings*

Venue : Eurexpo Exhibition Centre, 9 avenue Louis Blériot, Chassieu, France

### About Global Industrie

**Global Industrie will be held in Lyon, from 5th to 8th March 2019.** The 1st edition took place in Paris in early 2018. This fair will cover the whole of industry and enable you to discover your partners and all the solutions, technologies, services and know-how you need for the industry of today and tomorrow. The fair targets the **entire industrial ecosystem** (from start up to major customer including subcontractors, equipment manufacturers, competitiveness clusters, research centres and incubators...), the **entire added value chain** (R&D, design, production, maintenance, services...), and **all user markets**.

The event brings together **4 major shows** that are leaders in their respective field :

- Industrie : manufacturing technologies and equipment event
- Smart Industrie : smart, efficient and digital industry know-how
- Midest : for all industrial subcontracting know-how
- Tolexpo : for sheet metal, tube and section working

**Key figures 2018 :** 40 800 visitors  
2 250 exhibitors – 29% international from more than 35 countries  
49 320 sqm of exhibition space  
1 040 business meetings  
150 start-ups  
International delegations : Portugal, Brésil, Japon, Chine, South Africa...

**Objectives in 2019 :** 45 000 visitors  
2 500 exhibitors  
110 000 sqm of exhibition space  
Several events :

- Connected Factory – 9 000 visitors expected
- Conferences – 4 000 listeners expected
- Campus – 7 000 students expected
- Awards
- Business meetings
- International keynotes and panel discussions
- Industry 4.0 International Days

# Industry 4.0 international days, 6 & 7 March

## Conference and Business meetings

During Global Industrie, Auvergne-Rhône-Alpes Entreprises will organise an **international conference, on 6th March**. Through keynotes, panel discussions and networking, the aim is to share with companies **information and good practices that have emerged in industrial companies** all over the world – from a technological, economical and human point of view – **to take advantages of these technologies and enhance performance**.

Several speakers (companies, labs, economists, technical centres...) will be present to discuss about the importance of rethinking business strategies and business models impacted by these new technologies, of training employees in these new technologies and of recruiting new competences and profiles (data scientists...).

The 1st **business meetings about Industry 4.0** at this fair will be organised **on 6th and 7th March**. This matchmaking event is a great opportunity for participants to **meet potential international cooperation partners** for technological, commercial or applied research projects in this field. It will also be open to H2020 calls for proposal related to this thematic (under selection).

Who can participate ? All private and public industrial players (companies, clusters, research laboratories, incubators...), from the entire added value chain and all the various user markets.

Participants have to **register for the conference and the pre-arranged business meetings** on a dedicated platform: <https://industry-days-2019.b2match.io/>

Interested participants have to **register for the fair Global Industrie** as well to access the event: <http://globalindustrie2019.site.calypso-event.net/en/visiteur.htm>
